P Persona Role assigned to AI	R Restrictions Boundaries and limits	A Audience Target readers or users
C Concept Core topic focus	T Task Specific actions to perform	I Intent Underlying, why?
	S Situation Background context	

This is the beginning of building a strong prompt. As we move forward, we will continue adding more elements to make the prompt clearer, more specific, and more effective.

1. Persona (Whom should the AI act as?)

   Define the role, expertise, or perspective you want AI to adopt.

- Police officer
- Teacher
- Nurse
- Instructional designer
- Career coach
- Comedian
- Motivational speaker

My Persona

I want the AI to act as:

2. Audience (Who is this response for?)

> Specify who will receive or use this information.

(Police Officer)

- Local business owners, merchants, retail employees, and neighborhood residents within the commercial district.

(Teacher)

- Eighth-grade students struggling with foundational math concepts, along with their parents or guardians.

(Nurse)

- Emergency department patients, their families, and the multidisciplinary healthcare team (doctors, techs, and fellow nursing staff).

My Audience

The response is intended for:

Putting It Together

Template

> Act as [**PERSONA**] creating content for [**AUDIENCE**].

Quick Check

Before moving to the next step, make sure you can answer these two questions:

- ☐ **Persona**: Whom should the AI act as?
- ☐ **Audience**: Who is the response for?

If both answers are clear, your prompt has a stronger foundation but we are not done yet.
